What is Akram Vignan?

- It is a path of grace that changes everything!

It is a practical applicable spiritual science and a shortcut on the path to liberation.

- Entering this science starts with the Gnan Vidhi, (a unique ceremony), performed by Atmagnani Pujya Deepakbhai.
- There, at the subtle level, the true SELF is separated from the worldly self. From deep inside the awakening of the awareness of 'Who I really Am' happens.

By grace, the seeker immediately attains the Self-Realization.

- Akram Vignan is the stepless path, that directly and without detours leads to the awareness of one's Soul

What is Self-Realization?

- Self-Realization is to know, who I really am.
- The worries disappear because we get the right understanding of 'who the real doer is'.
- The inner weaknesses of anger, pride, deceit and greed are gradually disappearing - the experience of the bliss of the soul increases.
- With the application of the scientific principles of Akram Vignan begins the experience of eternal peace, happiness and harmony with all creature.
- It creates a sense of oneness with every living being, because the true Self (the soul) is in all living things.

What is unique about it?

- The traditional path to liberation (Kramik path) requires that people be aware of their worldly live and give up all their possessions. It is expected to overcome internal weaknesses and gain self-control, to practice the ego dissolve and reach ultimately the Real Self.
- On the stepless path to liberation (Akram path) nothing like this is required. We can achieve Self-Realization while we live our life and fulfill our daily duties.
- The entire Akram Vignan event is free of cost. There is only a proportional contribution for the venue hall (including tea & water) and for daily lunch-meals.
