

AKRAM VIGNAN GERMANY EVENT

DISCLAIMER

The **Akram Vignan Event** is a spiritual seminar and is for awareness of the self. It requires that a person have a mature, stable perspective. However, this event is not designed to address specific emotional issues, nor does it serve as a substitute for medical treatment or sensitive mental health counseling. Nothing in this event constitutes an attempt to make a psychiatric diagnosis, nor does the course establish a doctor-patient relationship between the participant and the course instructors or organizers.

I understand that if I have special emotional, mental or other health needs, I should contact appropriate professional health care, outside the scope of the Akram Vignan Event. If I am receiving psychological and/or psychiatric treatment, then I will coordinate participation with my therapist. In this case I will send in advance the written certificate of the therapist, about a non-objectionable participation in the event.
